

LTL FUEL SURCHARGE PROGRAM

The following information outlines the Trademark Fuel Surcharge Program for less than truckload (LTL) shipments. The fuel surcharge below is determined by the U.S. National Average Fuel Index for diesel fuel as published by the U.S. Department of Energy. The current Diesel Fuel Index can be obtained each Monday by checking their web site (<http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp>). For each 8 cents per gallon, the surcharge increases one percent.

In order to be implemented, the Department of Energy national diesel fuel average must remain above \$1.15 for four consecutive weeks. Once implemented, the surcharge will continue until 30 days after the Department of Energy national diesel fuel average drops below \$1.15 per week.
